The propane marketer seeking a rebate must submit a full and complete Application form. Submission of the application form constitutes a representation on the part of the participating propane marketer that the work shown on the form has actually been completed. A safety inspection must be performed by the participating propane marketer after the installation of each new qualifying appliance(s) and the result of that inspection must be documented on the Application form. The safety inspection for qualifying appliance installations must, at a minimum, include the following: 1) **a leak test;** 2) a pressure test if required by applicable laws, rules and regulations; and 3) **a flow and lock-up test on the regulator**[s]. The propane marketer agrees to comply with all laws, rules and regulations governing the installation of the qualifying appliance and with the manufacturer's installation instructions. The Rocky Mountain Propane Association assumes no responsibility whatsoever for the installation, inspection or testing of the qualifying water heater or any associated gas system and, by issuing a rebate makes no representation, warranty or guarantee regarding the qualifying water heater or the associated gas system. The Rocky Mountain Propane Association disclaims any liability for any personal injury, property damage, business losses or other damages of any nature whatsoever, whether special, indirect, consequential or compensatory, directly or indirectly arising from the installation of the qualifying appliance(s).
